28 June S 25X1

Msn 1021-2 failed due to film mfrg defects.

NR
25X125X1

21 June 65, presentation of COR improvement program for D/NRO & [REDACTED]
at Pentagon by DDS&T, Itek, GE and LMSC personnel. Also [REDACTED]
Opposition was received at the mtg from Col Heran of AF 241 [REDACTED] Office
D/ NRO reacted favorably to rotating optics but did not buy
other changes proposed. Said he hoped for a more immediate program.
Crowley said with guidance the Cor Impr Grp could indicate what
immediate improvements could be made in more timely manner.
25X1 (Maxey, Crowley, [REDACTED] (CIA) attendees).

Crowley said he was against fractionating the payload, the
improvements should be done on a block basis, and the camera was
pacing.

McMillan said go ahead with camera modifications in spite of
25X1 [REDACTED] disagreement.

NRO review(s) completed.
